1. Fact Sheet

The Mobile Floor Ad Event is perfect for the implementation of unique and interactive animated image ideas. Due to its prominent position, being a dynamic, paging footer at the document edge, the Floor Ad creates an eye-catching effect for your advertising message.

Thanks to the “sticky” effect, your message always stays within the users’ field of view. The expandable function is highlighted through an upward pointing triangle.

If you have any questions, please contact:

E-Mail: ads@united-internet-media.de

Last update: 01.07.2020

2. Data Sheet

Screen ⁽¹⁾	Ad type	Measurements	File size Initial load ⁽²⁾	File size Subload ⁽²⁾	File format
	Mobile Banner 4:1 ⁽⁵⁾	300 x 75 px	50 kB	100 kB	Image, HTML ⁽³⁾
					
	[in expanding state] Mobile Banner 1:1	300 x 300 px	75 kB	150 kB	Image, HTML ⁽³⁾ , Video ⁽⁴⁾

⁽¹⁾ Either the mobile or desktop view of our portals will be displayed on tablets depending on the user agent. The following criteria will determine the type of display: screen size, operating system, version, browser, browser version, portrait or landscape display, and its environment. Please note that this format is only shown in the mobile view.

⁽²⁾ Please consider further information under article 8.5.

⁽³⁾ We refer to the OVK guidelines for HTML5. For more information on these guidelines, please see: <https://www.united-internet-media.de/en/downloadcenter/specifications/>

⁽⁴⁾ We refer to the United Internet Media Video Specifications here. For more information, please see: <https://www.united-internet-media.de/en/downloadcenter/specifications/>

⁽⁵⁾ United Internet Media adds an upward pointing triangle to the top edge of the mobile banner 4:1, in order to highlight the expanding option. In starting condition, the ad will be shown minimized. After clicking the mobile banner 4:1 or the upward pointing triangle, the expanding shows. The expanding area closes after clicking the closure button.

3. General United Internet Media Requirements

The General Terms and Conditions <https://www.united-internet-media.de/en/general-terms-and-conditions/> and General Advertising Guidelines <https://www.united-internet-media.de/en/downloadcenter/general-guidelines/> are applicable here.

Any violations of the points listed above or applicable law will automatically lead to the advertisement being declined.

4. Submission Details

- 4.1. The ad or redirects must be submitted at least **three working days** before the start of the campaign.
If the files are not sent on time, United Internet Media cannot guarantee that the campaign will start as scheduled, or that the ads will be integrated without any errors.
- 4.2. All ads must correspond to our defined specifications. Elements that do not comply with these specifications will not be used, and United Internet Media will not correct or install them.
- 4.3. All ad formats are subjected to an internal check.
- 4.4. Ad identification:
 -  : The ad must be clearly identifiable as an advertisement. It may only copy or imitate content on the pages with advance approval from United Internet Media. If necessary, it must be labelled with the words "Advertisement" or "Ad".
 -  : To indicate to the user that this is an ad, and not editorial content:
-w- in one of the four corners, high-contrast type colour, sans serif typeface, min. 9 pt.
If this label is missing, United Internet Media reserves the right to incorporate it.

5. Display Details

- 5.1. Ads are always displayed in non-friendly iframes on portals operated by United Internet Media. Modifications may not be made to specific sites. United Internet Media does not specify any use of web development libraries.
- 5.2. Ad features (e.g. sticky, expanding, collapse, etc.) or permanent components of a specific type of ad (close button, interstitial, etc.) will be provided by United Internet Media and may not be implemented in the advertisement already. In addition, the ads may not interact with the page in any way.
- 5.3. Redirects with Rich Media templates that modify the page are not allowed as these may result in errors.
- 5.4. United Internet Media reserves the right to approve each individual motif. Advertisements that evoke extremely strong responses or impact the use of the site too dramatically may be rejected.
- 5.5. All ads have to be reviewed in advance to ensure that they comply with all guidelines and regulations governing the protection of minors. United Internet Media reserves the right to limit access/display time for the advertisement in line with any age restrictions, or reject the motif entirely.
- 5.6. United Internet Media reserves the right to determine and enforce frequency capping when it comes to the number of times an ad is displayed.
- 5.7. The customer is responsible for cross-device/cross-browser compatibility.

6. Ad Serving

- 6.1. External tracking pixels may be integrated to count clicks and impressions. These must be unattached from the corresponding destination URLs and also allow for clicks to be tracked by United Internet Media.
- 6.2. It is necessary to notify United Internet Media in advance and coordinate the intended use of view time/visibility measurements or other expanded tracking methods featuring scripts. United Internet Media reserves the right to reject this type of tracking.
- 6.3. It is possible to submit redirects. To avoid white or blank spaces from being displayed, it is necessary to store a fallback in the redirect.

7. Audio, Video (Physical or Redirect Submission)

We refer to the United Internet Media Video Specifications here. For more information, please click here:
<https://www.united-internet-media.de/en/downloadcenter/specifications/>

8. Technical Requirements

- 8.1. Https is necessary for all ads shown on United Internet Media portals. This is also relevant for 3rd party redirects (tracking pixels | video).
- 8.2. The ads should not noticeably impact the CPU usage or site performance on an average device. United Internet Media reserves the right to reject ads that impact site functionality. Reasons for negatively impacting/disrupting site performance: excessive or incorrect use of JavaScript or other web animation functions.
- 8.3. If the ad contains transparent sections that overlap the page, any content below these layers must still be clickable. In this case, United Internet Media reserves the right to request a mandatory semi-transparent background, or reject the ad. United Internet Media also reserves the right to exclude individual browsers from the display.
- 8.4. It is necessary to define buttons for all clickable areas. The uniform standard to deliver the redirect to the marketer's click tracker is the "click tag". Please take note of our „OVK Guidelines“ (<https://www.united-internet-media.de/de/downloadcenter/spezifikationen/>)
- 8.5. Initial- and subload
 - Loading ads is primarily limited to the initial part.
 - After completing the initial load, it has to be ensured that the advertiser's motif is depicted on the ad space.
 - For complex creations where the allowed file weight (initial load) does not suffice, additional contents may be reloaded up to the specification limit (subload).
 - The stated file weight also includes all resources that are accordingly transferred with the ad via internet (e.g. measurement scripts).
 - The submission as 3rd Party Redirect requires the adherence of above-mentioned guidelines.
 - Regarding this, please also consider the OVK specifications. (<https://www.united-internet-media.de/en/downloadcenter/specifications/>)
