## 1. Fact Sheet

Branded Content offers you a full-page integration of your advertising message on our portals WEB.DE and GMX, and by being anchored in one of our editorial topics will enrich your brand with credibility and attention. Furthermore, the Branded Content integration adapts automatically to every screen size and thus guarantees an optimal presentation.

Native teasers and the Inbox Ad Clickout or the Inbox Ad Image Clickout, depending on your booking, will drive traffic to your branded content.

## 5. General United Internet Media Requirements

The General Terms and Conditions <https://www.united-internet-media.de/en/general-terms-and-conditions/> and General Advertising Guidelines <https://www.united-internet-media.de/en/downloadcenter/general-guidelines/> are applicable here.

Any violations of the points listed above or applicable law will automatically lead to the advertisement being declined.

## 6. Submission Details

- 6.1. The ad or redirects must be submitted at least **five working days** before the start of the campaign.  
If the files are not sent on time, United Internet Media cannot guarantee that the campaign will start as scheduled, or that the ads will be integrated without any errors.
- 6.2. All ads must correspond to our defined specifications. Elements that do not comply with these specifications will not be used, and United Internet Media will not correct or install them.
- 6.3. All ads are subjected to an internal check.

## 7. Display Details

- 7.1. United Internet Media reserves the right to approve each individual motif. Advertisements that evoke extremely strong responses or impact the use of the site too dramatically may be rejected.
- 7.2. All ads have to be reviewed in advance to ensure that they comply with all guidelines and regulations governing the protection of minors. United Internet Media reserves the right to limit access/display time for the advertisement in line with any age restrictions, or reject the motif entirely.
- 7.3. An advertisement identification is displayed by United Internet Media.

## 8. Ad Serving / Tracking

- 8.1. External tracking pixels may be integrated to count clicks and impressions. These must be unattached from the corresponding destination URLs and also allow for clicks to be tracked by United Internet Media.
- 8.2. It is necessary to notify United Internet Media in advance and coordinate the intended use of view time/visibility measurements or other expanded tracking methods featuring scripts. United Internet Media reserves the right to reject this type of tracking.
- 8.3. Tracking, cookies and similar technologies that process personal data must comply with the current privacy regulations.
- 8.4. All technical service providers (vendors) must be registered in the IAB Transparency and Consent Framework (TCF 2.0) and must be able to respond to its signalling. Please note the "TCF 2.0 Notes" (<https://www.united-internet-media.de/en/downloadcenter/specifications/>).

## 9. Technical Requirements

Https is necessary for all ads shown on United Internet Media portals. This is also relevant for 3<sup>rd</sup> party redirects/sources.

## 10. Environmental sustainability of online advertising

As a publisher, we pursue various approaches as part of our sustainability strategy in order to reduce CO2 emissions when delivering digital advertising. These include measures relating to energy efficiency in server use and optimizing our advertising technology.

Advertisers also have the opportunity to directly influence the electricity consumption and thus the CO2 emissions of their digital advertising campaign. In our "Recommendations for more sustainable advertising media", we highlight various measures that can lead to emission savings when creating advertising media. <https://www.united-internet-media.de/en/downloadcenter/sustainability/>
